

# SEEKURE<sup>®</sup> FR

ROLLED

PROTECTION MATERIAL

FOR BUILDING AND REFURBISHMENT WORKS

# Versatile Non-Slip Protection

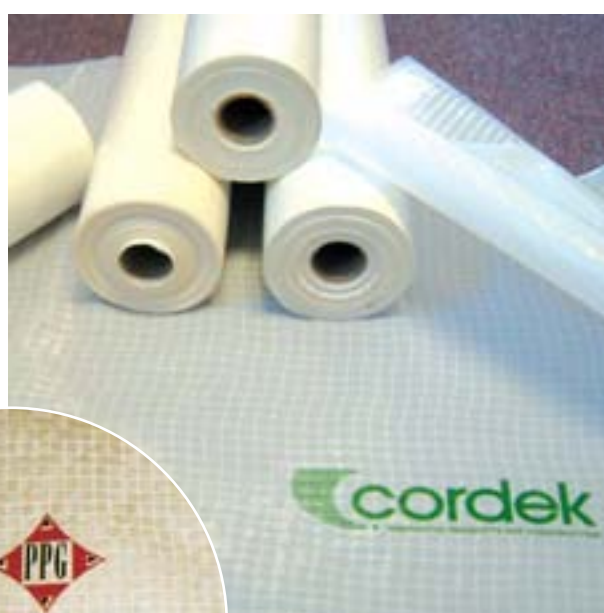

**Seekure® FR is a durable non-slip temporary protection material, made from fabric reinforced polyethylene.**

Supplied in rolls for ease of use, it ideally complements the wide range of Correx® protection board also supplied by Cordek.

## Benefits

Seekure FR is a versatile material that is:

- Highly slip resistant
- Reinforced for durability
- Waterproof
- Flame Retardant to LPS 1207
- Quick to unroll and lay
- Easy to handle and store
- Very competitively priced

A personalised print service is also available for large volume customers.

## ► Application

Seekure FR is selected by many major contractors to protect:

- Walls and Stairs
- Floors and Carpets
- Woodwork
- Furniture
- Computers and Office Equipment

Cordek also supply a range of adhesive tapes that ensure a uniform waterproof layer, even on very large areas.

## Flame Retardancy

Seekure FR is flame retardant to LPS 1207.

It is fully accredited by the Loss Prevention Council and has passed their full range of tests (supporting data is available on request).

Certificate No. 280a

## Product Characteristics

### Standard Roll Sizes

Width (mtrs)	Length (mtrs)	Weight (kg)	Diameter (mm)
2	50	13.5	125
1	50	7.0	125

## Performance

Weight of Seekure FR (g/m <sup>2</sup> )	Tensile strength along roll (N)	Tensile strength across roll (N)
133	91	102
