

Design Technician

CORDEK LIMITED

The Company

Cordek is a leading building products manufacturer that has a range of unique, innovative and patented products.

As well as a range of core products the Company specialises in supplying complex formwork, architectural patterns and moulds, and unique forms manufactured using 3D modelling and the latest 5 axis machining techniques.

The Position

The ongoing success and expansion of the company has resulted in a vacancy for a junior Engineer/Technician/Designer/CAD draughtsman to work with the Project Design team.

The Project Design team focuses on providing contractors, precast concrete manufacturers, engineers and architects with project specific solutions to construction challenges.

The Role

This is a varied role which includes CAD drawing and detailing, take offs, estimating and project administration. More specifically:

- Producing 2D drawings and 3D CAD models for pricing, customer approval and manufacture.
- Speaking to customers to understand their specific requirements.
- Preparing quotations.
- Handling customer enquiries through to order delivery.
- Liaison with production department on both product design, methods of manufacture and delivery schedules.
- Using a CRM system for project administration

The Individual -

The following experience/skills are essential:

- CAD, 2D minimum, preferably 3D
- The ability to communicate clearly and concisely both verbally and in writing
- The ability to read drawings
- Computer literacy including Word, Excel, Outlook

Ideally candidates will also have:

- A further education qualification, degree or equivalent, in Engineering, Design or similar
- Work experience in a construction or building environment.

Personality:

- Organised, with a positive outlook and capable of using own initiative
- A practical and problem solving mind
- Ability to work individually or as part of a team
- Able to prioritise tasks and achieve deadlines
- A desire to learn new skills

This is a challenging and rewarding position for someone with the enthusiasm to learn and develop their knowledge and skills in a growing company.

Remuneration

A competitive salary commensurate with skills and experience, an annual performance bonus and membership of the Company Group Personal Pension Scheme.
