

Materials :-

Refer to Cordek technical data sheets for full detailed material specification

A. Cordek Radon Gas Membrane
 B. Cordek Gas Resistant Self Adhesive Membrane
 C. Cordek Correx Protection System
 D. Cordek GR DPC
 E. Cordek Double Sided Jointing Tape
 F. Drainage Layers by others

Notes :-

- This detail is issued for guidance purposes only, with final approval required from the designer
- Do not scale from drawing, use dimensions provided
- All laps and junctions must be fully sealed with appropriate welding techniques or jointing system
- The intended construction sequence should be considered prior to selection of the appropriate Cordek standard detail to ensure that installation is practical and achievable
- In line with industry guidance and good practice, a sub-floor venting layer should be considered - please consult Cordek for further advice
- In accordance with BS8102:2009, should hydrostatic water pressure be a risk, additional waterproofing methods should be considered.
